

Ohio University
Department of Chemical Engineering
ChE-455/ChE-555: Analysis of Electrochemical Systems

Homework 4-Grading Rubric

Name:

Problem 1 (10 points)	Max	Points
1. Presentation of the problem and calculations and graphs. Follow all the steps required for the solution of electrochemical problems. Clear definitions of known and unknown information. Procedure easy to understand (correct reference to tables used). Organization of calculations.	3	
2. Correct answer to part a	2	
3. Correct answer to part b	5	

Max Points: 10
